

Christabel Aurelia Rufana

UI/UX Designer • Front-End Developer

Tasikmalaya, Indonesia | [linkedin.com/in/christabelaurelia](https://www.linkedin.com/in/christabelaurelia)

Portfolio

PROFILE

Information Systems student and UI/UX Designer who builds digital products end-to-end — from user research and wireframes in Figma to functioning code with Laravel and HTML/CSS. Designed and developed HOZOF, a hotel food-ordering platform officially registered under Indonesia's HKI (intellectual property registration), and HERO, an e-commerce site built independently from interface to database. Works with the same process on every project: understand the problem, design the solution, then ship it. Open to UI/UX Design or Front-End Developer roles, remote or on-site.

EXPERIENCE

UI/UX Designer & Front-End Developer | Hotel Horison Tasikmalaya (Internship / PKL) *Aug 2025 – Oct 2025 • Tasikmalaya*

- Designed and built HoFood, a web-based food-ordering system for the hotel, replacing a previous manual ordering process.
- Continued development into HOZOF (Horison Zone Food) in Apr–May 2026, adding cancel-order and rating features.
- System is officially registered under Indonesia's HKI (intellectual property registration).

Social Media Officer & UI/UX Designer | Basain Official *Jan 2024 – Aug 2024 • Bandung (Remote, Part-time)*

- Designed the company's website UI/UX from scratch — first hands-on UI/UX project, from wireframe to high-fidelity prototype in Figma.
- Managed the brand's social media presence alongside the design work

SELECTED PROJECTS

HERO [Built end-to-end]

E-commerce website for a family-owned neighborhood grocery store (toko kelontong), designed and developed independently from interface to database, using Laravel and MySQL.

HOZOF [HKI-registered]

Web-based food-ordering platform for Hotel Horison Tasikmalaya, from manual process to full online system with cancel-order and rating features.

LAUNDRY [Redesign & Feature Enhancement]

UI/UX redesign and feature enhancement of a laundry service system; base system built by another team, used as a thesis comparison case.

BASAIN Mobile E-commerce

Mobile-first UI/UX for an online phone case store, wireframe to high-fidelity Figma prototype, covering browsing through checkout.

RuangBonsai

E-commerce UI/UX for bonsai plants and care equipment (semester 4 group project; sole UI/UX Designer).

i-Health

Role-based healthcare dashboards for doctors, patients, and admins (semester 3 group project; sole UI/UX Designer).

FZT.com

Tourism website for Tasikmalaya, interactive prototype covering discovery through trip planning (semester 2 group project; sole UI/UX Designer).

SKILLS

Design: Figma, Canva, CapCut

Development: HTML, CSS, JavaScript, Laravel, PHP, MySQL

Approach: User research, wireframing, prototyping, responsive design, front-end implementation

EDUCATION

S1 in Information Systems | Universitas Bina Sarana Informatika (UBSI), Tasikmalaya *2023 – 2027*
